The City of Spartanburg is currently self-insured as a member of the South Carolina Municipal Self-Insurance Trust, a Commission approved self-insurance fund. DIVISION DIRECTORS' REPORTS

The Division Directors presented their reports which were also submitted to the Commission in written form.

A Stress Management Workshop was held during the Agency Wide Meeting on November 18, 2010.

Information Services

Betsy Hartman presented the Information Services Department's report. Ms. Hartman reported that the November 19 Attorney Focus Group Meeting was very positive and IT received valuable suggestions from the participants.

Insurance & Medical Services

Al McCutcheon presented the Insurance and Medical Services Department's report. Chairman Beck stated that at the last two months' business meetings there was discussion about the decrease in coverage fines assessed. The explanation provided for the decrease of coverage fines assessed August to September was due to a glitch in the computer program. At the November business meeting the explanation provided for the decrease in coverage fines assessed was not a glitch in the computer program but was due

to a new business rule. Chairman Beck asked if \$18,000 or \$19,000 is the normal monthly coverage fines assessed. Mr. McCutcheon said that he did not have that information presently but he would provide at the next business meeting two years of data.

Claims Department

Greg Line presented the Claims Department's report. He said that fines have decreased since July 2010. It appears that the carriers are filing Form 18s in a more timely fashion.

Judicial Department

Virginia Crocker presented the Judicial Department's report. She reported an average of 400 Informal Conferences per month. There was discussion on the average number of conferences held per day per person. Ms. Crocker said on average a person can do 40-45 conferences per day. Ms. Crocker said that the conferences are scheduled so that claimants drive no more than 30 minutes to a conference.

Commissioners and provided comments on the proposed changes. As provided in Section 1-23-111 the Chairman has 20 working days from the date of the public hearing, or until December 30, to issue a written report which will include the findings as to the need and reasonableness of the proposed regulation. The report may include other factors and suggested modifications in the case of finding a lack of need or reasonableness. If the Chairman determines the need for reasonableness of the proposed regulation has not been established, the agency shall elect to modify the proposed regulations, not modify the proposed regulations and submit them to the General Assembly, or terminate the promulgation process by publication of a notice in the State Register.

Assessments – Form 18

At the December 14, 2009 Business Meeting staff recommended changing the process of assessing and collecting fines for Form 18s from bi-monthly to daily beginning in January 2010 through June 30, 2010. This required employing temporary personnel in order to process the increase in assessments and collections at a projected expense of \$15,000. We projected an increase in the number of fines assessed by average of 745 per month and an increase in the revenues of \$452,400 for the six month period for a net increase of \$437,500.

Commissioner Huffstetler requested a report on the results of those efforts. The temporary staff was employed from February 8, 2010 to June 30, 2010 at an expense of \$6, 545. For the same five month period the number of fines assessed were increased by 1,128 and the amount collected increased by \$422,247. The net increase in revenues for the five month period was \$415,702 or \$21,798 less than the projected amount for the six month period.

OLD BUSINESS

A. Implant Procedures Fee Carve-Out

Mr. Cannon said that at the November 15, 2010 meeting of the Full Commission, staff was asked to develop a work plan to revisit the implant fee schedule carveout issues. Mr. Cannon recognized Al McCutcheon.

Mr. McCutcheon presented a proposed work plan for study of implant carve-outs. He listed the following identification of resources and collection of data:

Medicare NCCI Budget and Control Board Office of Statistics Carrier and hospital data SC Medical Association and SC Hospital Association State Health Plan Survey of other states Stakeholder comments from July 22, 2009 public hearing RAND Institute study "Payments for Hardware Used in Complex Spinal Procedures under California's Official Medical Fee Schedule for Injured Workers" – 2005

RAND Institute study "Inpatient Hospital Services: An Update on

Services Provided Under California's Workers Compensation Program" - 2009 Initial implant research by Gary Thibault WCC Medical Consultant Dr. David Adcock

Commissioner Huffstetler requested that California be included in the survey of other states. All Commissioners agreed with the request.

Commissioner Huffstetler asked about updating the data for the initial implant research by Gary Thibault. Mr. McCutcheon responded he would contact the resources for current data.

Chairman Beck asked Mr. McCutcheon how he came up with the list of resources. Mr. McCutcheon responded that the list of resources came through communication with Dr. Adcock and office staff, and reviewing Mr. Thibault's research.

Mr. McCutcheon presented the following proposed methodology for the financial impact analysis: Collect utilization and payment data from carriers, hospitals, and Budget and Control Board Office of Statistics; and develop a pro forma financial analysis similar to that used for analysis of payment methods for the Medical Services Provider Manual to show current system costs without impact carve outs vs. several options for carve-outs.

Mr. McCutcheon presented the following process for receiving stakeholder review and comments: stakeholders were given an opportunity to comment both in writing and at a public hearing held on July 22, 2009; and upon completion of a draft proposal in April 2011, a second opportunity for comment will be granted to stakeholders with a public hearing to be held in May 2011.

Mr. McCutcheon presented the following schedule for completing the proposed work plan for study of implant carve-outs:

Completion Date	Task
February 28, 2011	Collect policy, utilization and payment data
March 31, 2011	Analysis of financial impact
April 18, 2011	Draft proposal to Commission
May 31, 2011	Stakeholder review, comments, and public hearing
June 20, 2011	Final proposal to Commission

Commissioner Wilkerson asked Mr. McCutcheon if he will make a recommendation to the Commission in the draft proposal. Mr. McCutcheon replied that he would.

Chairman Beck asked Mr. McCutcheon who is responsible for the work-plan and if the completion dates are reasonable. Mr. McCutcheon replied that he is

responsible and best efforts will be made to meet the completion dates. Chairman Beck asked if there was any discussion regarding appointing an advisory committee. Mr. McCutcheon replied that he and Gary Cannon had discussed it, but opted not to form an advisory committee. Mr. Cannon said that an advisory committee could be established if the Commission so desires and a draft proposal presented to the Commission by April 18, 2011.

RE: Outstanding Fines Status

The following is the requested status of outstanding fines in the Compliance and Coverage Divisions of the Insurance and Medical Services Department:

Compliance

There are two categories for Compliance fines: cases with underlying claims; and cases without underlying claims. Cases with underlying claims are those cases in which a claim has been filed but there is no record of the employer having coverage. Cases with no underlying claims are the cases where employers are discovered to have no coverage through the search of the Employment Security Commission records or a random coverage check.

The procedure for collection of fines is as follows:

1. Employers suspected of not having insurance are sent a letter requesting verification they have coverage and are given 14 days to respond. Failure to respond and to immediately acquire insurance will result in fines being assessed at \$1.00 per day for each employee, a minimum of \$10.00 per day and a maximum of \$100.00 per day.

Forty violation letters were issued during the month of December.

2. For cases without an underlying claim, if the employer immediately comes into compliance after the initial notification, the assessed fine is \$750 for 10 or less employees and \$1,000 for 11-20 employees.

Seventeen compliance agreements were received during the month of December.

3. If there is no response and we can prove the employer is subject to the Workers' Compensation Act, the Compliance Division subpoenas the employer to an Order and Rule to Show Cause hearing. These hearings are scheduled every 30 days.

Twenty-two subpoenas were issued in December. The next Order and Rule to Show Cause hearing is scheduled for January 31, 2011.

4. Along with the subpoena, the employer is provided a letter offering the opportunity to settle in lieu of attending the hearing. However, if the employer does not settle, and the employer is found to be subject to the Act at the hearing, an order is issued finding the employer in violation of the Act. In most instances, the order stipulates maximum fines and penalties. Orders are issued within 30 days after the hearing.

No orders resulting from the November 30, 2010 Order and Rule to Show Cause hearing were published in December.

5. If there is no response to the order, a civil judgment is filed within 45 days.

No civil judgments were filed during the month of December.

6. Further contact with the employer (telephone and letter) is attempted by the Director of Compliance. If the employer remains willfully uninsured, the Director of Compliance files a criminal complaint with the jurisdictional magistrate. This new procedure for the Department has yet to be finalized with legal counsel.

Coverage

There are two types of fines assessed on carriers by the Coverage Division:

A. Late filing for policies not received within 30 days of the policies' effective date.

B. 12M Minor Medical Fines

In January - March 2010, approximately 200 carriers were sent a final notice on fines over 90 days old. Carriers were advised that failure to pay outstanding fines would result in a subpoena being issued requiring attendance at an Order and Rule to Show Cause Hearing. Initially, these carriers owed \$207,375 in fines over 90 days old. This total was reduced to \$20,431.33 as of January 6, 2011.

RE: Coverage Fine Assessments Status

At the December 13, 2011 Full Commission meeting, Chairman Beck asked if \$18,000 or \$19,000 is the normal monthly coverage fines assessed. Attached is a spreadsheet of coverage fine assessments for FY2009, FY2010, and FY2011. The average monthly assessments are as follow:

```
FY2009 - $37,158
FY2010 - $47,125
FY2011 - $12,400
```

It is clear that in FY2011, we have seen a significant reduction in Coverage fine assessments. This is primarily due to the FY2010 upgrade in our Coverage system to the current IAIABC Proof of Coverage 2.1 standard which provides additional detail on policy transactions, such as whether the transaction is a renewal or duplicate. Based on this additional information, we implemented a new business rule in July 2010 to not assess fines for late renewals or duplicate transactions. Under the previous business rule, we could not identify renewal and duplicate transactions and we had "probable cause" to issue a fine. It was up to the carriers to request that the fine be waived. Approximately 17% of late fines under the old system in FY2009-2010 were eventually waived when carriers would notify us that the transaction was a renewal and there was no break in coverage. However, a number of fines such as this were never questioned and were paid by the carriers.

As you know, the Coverage fine assessment process is an automated process that relies heavily on IT to operate. I have met with IT on numerous occasions to discuss the decrease in coverage fine assessments. At our last meeting on 1/05/2011, IT provided the following system edits that would result in a fine not being assessed:

- 1. Policy information received within 34 days.
- 2. If policy is assigned risk and policy information is received with 34 days of latter of policy effective date or date of assignment to carrier.
- 3. If a transaction is rejected for some other reason.
- 4. If a duplicate transaction.
- 5. If a transaction has already been fined.
- 6. If a new policy replaces a binder.
- 7. If a transaction occurred before 6/15/2010.
- 8. If a transaction is for a self-insured.

IT is currently running a report for us to show the impact of reducing the number of days allowed for receipt of policy information from 34 to 31. IT is also to assist Coverage by identifying transactions that were not issued fines in September-November 2010 and we will investigate these further to see if a fine was warranted and not issued by the system.

Coverage and IT will continue to meet to review the late report of coverage fine process and we will report to you as needed.

SUBJECT: CLAIMS REPORT FOR THE MONTH OF DECEMBER

DATE: 01/11/11

Fines assessed for the month of December 2010:

- We assessed **661** fines for the month which was down from assessing **715** fines for the month of November.
- The dollar amount of the fines assessed for the month was **\$134,500** which was down from assessing **\$150,000** for the month of November.

Fines received for the month of December 2010:

- We received payment on **488** fines for the month which was down from receiving **649** fines for the month of November.
- The dollar amount of fines received for the month was **\$103,000** which was down from receiving **\$128,000** for the month of October.

The fines have gone down since July 2010 because it appears the carriers are filing the Form 18's in a more timely fashion –

- July assessed **1,195** fines
- August assessed 699_fines
- September 839_fines
- October 560 fines
- November 715 fines
- December 661 fines

The carriers are getting better at sending the Form 18's in a more timely manner therefore the fines will probably continue to decrease during the next several months.

Workers' Compensation Commission

Report of the Chairman, T. Scott Beck

Proposed Changes to Regulation 67-405 (C) (1) December 23, 2010

Pursuant to Section 1-23-111 of the SC Code of Laws, 1976 the following is a report subsequent to the Public Hearing on November 29, 2010 to receive public comment on the proposed changes to Regulation 67-405 (C) (1). This report includes the findings as to the need and reasonableness of the proposed changes.

Background

Regulation 67-405C (1) currently requires a thirty day notice prior to termination of a workers' compensation insurance policy. The proposed change provides for an exception to the thirty day notice and allows a ten day notice prior to cancellation of a workers' compensation insurance policy specifically for non-payment of premium or deductable.

The proposed change: Indicates Matter Striken Indicates New Matter

67-405-C (1). A workers' compensation insurance carrier shall file a notice of termination in accordance with R67-416. Such termination shall not be effective until thirty days after receipt by the Commission's authorized agent, <u>except when expiration, termination or cancellation as a result of non-payment of premium or non-payment of a deductible shall not be effective until ten days after the receipt by the Commission's authorized agent.</u>

Notice of Drafting

The Notice of Drafting regarding this regulation was published in the *State Register* on May 28, 2010. The proposed change, notice of comment period and notice of public hearing (Document No. 4152) was published in the *State Register* on October 22, 2010 (Volume 34, Issue 10).

Notice of Public Hearing and Opportunity for Public Comment

The Commission received written comments on the proposed changes until 5:00 p.m. November 24, 2010. A public hearing was conducted on November 29, 2010 at 10:00 a.m. in Hearing Room A at the South Carolina Workers' Compensation Commission, 1333 Main Street, Columbia, SC 29201.

Findings

The Commission followed the statutory and regulatory requirements to promulgate the proposed change to R67-405C(1).

The request for the proposed change is based upon a reported contradiction between Regulation 67-405C(1) and Section 38-75-730(a)(1) of the SC Code of Laws.

Written and oral testimony provided to the Commission prior to and at the Public Hearing do not support the argument a contradiction exist between R67-405C(1) and Section 38-75-703(a)(1). The language in Section 38-75-703(a)(1) reads

b) Cancellation under item (1) of subsection (a) of this section is not effective unless written notice of cancellation has been delivered or mailed to the insured and the agent of record, if any, **not less than ten days** (emphasis added) prior to the proposed effective date of cancellation.

The statute requires a minimum of ten (10) days notice prior to cancellation. A contradiction between the statute and the regulation would only be present if the Commission's regulations required fewer than ten (10) days notice prior to cancellation.

No substantive statistical or financial data was provided to the Commission prior to and at the Public Hearing to support the current regulation has created or will create in the future a financial burden or harm on the parties required to comply with this regulation.

During the Public Hearing the Commission questioned the parties requesting the change with regard to financial or statistical data supporting the argument the change is needed because of the financial burden the current regulation is placing on the businesses required to comply with the regulation.

Testimony presented at the Public Hearing indicated the proposed change will create a financial and unreasonable burden on the Uninsured Employers Fund. Under the current regulatory language any losses suffered on day eleven (11) through day thirty (30) following the notice of cancellation are the liability of the insurance carrier. The proposed changes will shift the burden of the losses occurring on day eleven (11) through day (30) will be the responsibility of the employer. Should the employer fail, refuse or be unable to pay for the loss it will become the responsibility of the Uninsured Employers Fund. It was argued this may result in an increased cost to the Fund. No financial or statistical data supporting the argument was offered. However, it was proposed this change should not be approved without conducting an economic impact analysis.

Recommendation

After reviewing all of the written material submitted and recorded at the public hearing and pursuant to Section 1-23-111 of the SC Code of Laws, I find a lack of need or reasonableness to approving the proposed change in the Regulation 67-405 C (1) and hereby recommend the South Carolina Workers' Compensation Commission, at its next regularly scheduled Business Meeting vote to terminate the promulgation process. Upon such action by the Commission, staff is directed to proceed with the publication of a notice in the *State Register* the promulgation process for this proposed regulation change is terminated.

RE: Informal Hearing Cost Assessments

Regulation 67-804 authorizes the Commission to impose the actual cost of an informal conference on an employer's representative or an attorney for failing to appear at a scheduled informal conference.

67-804 (H) If the employer's representative or an attorney, if any, fails to appear at the Informal conference, the Commission reschedules the conference. The Commissioner assigned to the claim may impose on the employer's representative or an attorney, if any, the actual costs of the conference as established by the Commission.

The current informal hearing cost assessment is \$186.33. We are unable to document how this amount was calculated, however, staff working at the Commission during that time reports it was established by Commissioner Marchant sometime between March 1988 and March 1999.

The attached spreadsheet reflects the calculations for the proposed assessment for the cost of an informal hearing. The cost allocation method more accurately reflects the cost associated with processing a claim for an informal hearing. It is the same method used to calculate the assessment cost authorized by regulation R 67-614 for hearings that have been brought, prosecuted or defended on unreasonable grounds.

Recommendation: Approve the informal hearing cost assessed under Regulation R 67-804 for FY 2010-11 at \$143.63. The effective date of the new assessment is upon approval by the Commission.

Ginger and Gary:

I hope both of you are doing well.

I received an inquiry from Wal-Mart concerning payment of TTD and TPD to claimants. They are interested in making such payments via direct deposit into a claimant's checking account as opposed to sending checks. This will help increase efficiency, decrease their costs, and eliminate post office delays. They are starting a pilot program in 10 states and would like to try this in South Carolina. However, before they do it, they wanted to know if there were any legal barriers to doing it (I can't find any) and they wanted the approval of the Commission. I am interested in hearing your take on the suggestion. Please also let me know if this is something I would need to raise at a Full Commission business meeting or what other steps might be necessary to gat the approval of the Commission to try direct deposit instead of mailing checks.

Thanks.

Dear Commission:

Claims Management, Inc. (CMI) is seeking to improve its ability for injured Walmart associates to receive their indemnity payments. CMI's goal is to reduce the wait time for injured associates to receive their payments.

In South Carolina, more than 92% of Walmart associates receive their payroll checks by direct deposit. Our objective is to leverage this information and technology to improve our process. Initially, we will offer direct deposit to every injured associate receiving an indemnity payment from CMI. For new accidents, the injured associate will be able to utilize direct deposit within his or her first or second indemnity payment. When the associate is completing his or her initial paperwork at the store level, he or she will be able to enroll or decline direct deposit. Should the associate's banking information change, the associate will contact his or her CMI case manager to update the information. By utilizing direct deposit, the injured associate will receive his or her check in a much more proficient manner.

By utilizing this technology, the injured associate will receive his or her indemnity payment in a more consistent and timely fashion. We look forward to the opportunity to begin serving our injured associates more efficiently.

Sincerely,

Claims Management, Inc.
