## *Workers' Compensation Commission*

### **NUTS & BOLTS SURVEY**

The SC Workers' Compensation Commission usually conducts two one-day workshops per year, Claims Administration Made Easy (CAME) and Workers' Compensation Nuts and Bolts. The CAME target audience are individuals working in the system for period of time that they are familiar with Commission forms and processes. The Nuts and Bolts target audience are individuals new to the workers' compensation system and focuses on the basics of the forms and processes.

In light of the delay in the implementation of the new KERMIT system we are requesting your participation in the following survey to determine interest in conducting a Nuts and Bolts Workshop in the near future. Please note the workshop will not include any discussion of the KERMIT system and its new processes. It will only focus on the current forms and business processes.

Please click [here](#) to complete the survey.
